

# **Rec Centre Addition: Reverse Osmosis System**

To: Mayor and Council, Town of Wadena | Submitted by: Jennifer Taylor, CAO  
Regular Town Council Meeting  
September 17, 2019

## **RECOMMENDATION**

“THAT \$15,000 be authorized for installation of a reverse osmosis system in the Rec Centre addition to be funded from the Rec Centre loan.”

## **BACKGROUND**

The original plan for the Rec Centre addition included tying the addition into the existing RO system.

## **REPORT**

The existing RO system doesn't not have the capacity to supply the addition. A separate RO system would need to be installed to service the dressing rooms. Alternatives to installing a reverse osmosis system are to either install a water softener, or do nothing. The water to the addition is currently off so hard water isn't running through the news lines and fixtures.

After accounting for all work paid for to date and the disbursement of those invoices, there is approximately \$126,000 remaining on the balance of the loan. From this \$126,000, there will be a final Con-Tech invoice of approximately \$18,000. There is also a commitment to purchase custom matting for the sponsored dressing rooms which is also outstanding. The matting was ordered the Kin Club room has been ordered at a cost of \$1,500 plus taxes and shipping. The Richardson matting has not been finalized yet.
