

April 1, 2019

Dear Town of Wadena,

I take this time to extend our warmest welcomes to **Dr. B. Takra. DDS BDS.**

This letter is to request that we officially transfer the lease agreement I have with the town of Wadena over to Dr. Takra.

Dr. Takra is originally from India where he completed his dental studies in 2009, He then again achieved his Degree as a Dentist at the University of Michigan and has been working in Saskatoon for the last few years. Dr. Takra has been working in our community for a few months now and I have witnessed his love of Dentistry. His dedication to making people smile is heart warming. He, like all our members of the Dental Team work hard towards providing a safe, comfortable environment to strive for Oral Health Excellence.

It has been such a great pleasure serving our community to provide oral health care to its members; we are coming to a time where the clinic is able to grow in our services and have a Dentist take over the lease and care of the clinic. This will ensure the commitment of oral care for our community in addition to bringing in more hours for extended care. Although Dr. Takra will take over the lease I will remain a working member of the dental team and continue to provide services to our patients.

I am also so very grateful for Dr. Takra who will be bringing additional equipment and keep major procedures here in our town. Additional services such as a Panoramic X-Ray machine, Digital impressions, partial dentures and complete dentures; this will make it easier for our elderly community members to achieve all their dental needs without having to travel.

I look forward to see how the Town of Wadena can help get the word out of his arrival to help build a prosperous clinic here in Rural Wadena.

Thank you

Amelia Bandet

Registered Dental Therapist.
