## Director of Parks and Recreation “Working hard so you can play”

### May 21, 2019 REPORT

---

- 42 Second Street tree trimming has been completed and is ready for demolition
- Plates in the rink have been completed.
- Waterslide crew has most of the slide together. Contech has been out to sure up the slide tower.
- I will be working with the Pool staff to have the Grand Opening of the slide as part of our Canada Day celebrations for this year. Slide will still be open when the pool does but will give us a bit of time to work out any kinks we may have.
- I have also spoken with Western Rec and Commercial Pools about the pool liner. Both agree that the entire liner will need to be replaced.
- Spray program will be happening in the next few weeks
- Still waiting on Contech to finish the work at the dressing rooms.
- I was successful in obtaining my playground inspector it ended up not costing us anything.
- We have had a large influx of crews in town looking for camping space. I would like to propose some temporary power on the east side of our shed for 4 additional camp sites. (see attached quote) As for adding on where we currently exist we do not have the power capable of running 6 new sites without a major upgrade.
- Met with the Hall Committee on the following items.
  - Discussed and replaced back splash around the urinals in the men’s washroom.
  - Discussed the ramp at the back door. We are going to price out with Chris to build.

Respectfully Submitted by

*Chad S Glasser*
