Mayor Sara Sobchyshyn
Town of Wadena
102 Main St N
Wadena, SK S0A 4J0

Dear Mayor Sobchyshyn:

I am writing to share some exciting news.

Today SaskTel announced that we are planning to bring SaskTel *infiNET*TM service to your community as part of the fourth phase of our Rural Fibre Initiative.

Through this initiative, we plan to invest \$100 million to bring our cutting-edge fibre optic network to over 60,000 households and businesses spread across 45 rural Saskatchewan communities.

We plan to begin construction in your community next year and anticipate that the majority of your residents and businesses will be fibre ready by the end of 2023.

With the power of our fibre optic network at their fingertips, your residents and businesses will be better equipped to take advantage of the latest digital tools and technologies to connect with their family and friends, pursue business opportunities, and access remote learning and healthcare resources – all from the comfort of Wadena.

At SaskTel, we are firmly committed to connecting the people of Saskatchewan to what matters most to them. This commitment is the driving force behind our Rural Fibre Initiative, as well as our larger plans to invest \$1.4 billion of capital across the province over the next five years.

In closing, I would like to thank you and your community for your continued support while we work to bring *infiNET* service to Wadena.

Sincerely,

A handwritten signature in blue ink, appearing to read "Doug Burnett".

Doug Burnett
President and Chief Executive Officer
