RE: **Players Theatre Hall Upgrades- Follow up information**

ISSUE:

Players Theatre would like to initiate a few projects at the Wadena Community Legion Hall.

BACKGROUND:

The Players Theatre sent an email asking if they could start a few projects at the Hall to benefit the users. They would like to go ahead with building the ceiling grid over the stage, they would also like to build a loading ramp on the North stage door. Lastly, they would like to create something to make the main hall doors solid.

After more discussion with the Players Theatre the projects that were sent were ideas they had on their list that they would like to see completed. They have not gained any quotes or further information on these projects.

ALTERNATIVES:

1. Council can approve the projects.
2. Council can deny the request.
3. Council can ask that administration goes ahead with obtaining quotes for the budget to complete a project.

FINANCIAL IMPLICATIONS:

This would depend on what project is approved. Quotes can be obtained if Council would like to proceed with any of the projects.

ANALYSIS:

All of the projects that the Players theatre sent are items on their wish list that they would like to see done. The projects were sent more as a communication piece since the 2022 budget is being looked at rather than a formal ask. They would like to collaborate in the ceiling grid, and they would like for the Town to budget for the loading ramp.

ADMINISTRATIVE RECOMMENDATION(S):

“THAT Council provides Administration with further direction.”
